[info@lucapupulin.com](mailto:info@lucapupulin.com)  
[lucapupulin.com](http://lucapupulin.com)

is an art director and graphic designer based in Eindhoven, currently exploring custom type, coding and motion design.

## Statement

Luca is excited by the evolution of new digital landscapes – how they're informed by the large print tradition, and vice versa, how print environments are affected by the digital progression. As a type and graphic designer as well as an occasional creative coder, his aim is to investigate the processes of type design — and design itself — as an experimental practice.
